

# Increase Your Property Value with Technology Amenities

With recent changes in the market, federal regulations, and consumer preferences, property owners can provide these services directly to their residents with little to no investment.

## Services:

- Internet Connectivity
- Entertainment (streaming)
- Smart Home Apps

## Sample Calculations (per unit):

\$50 Monthly Profit

\$600 Annual Profit

\$15,000 Property Value Increase

### Notes:

1. Per-unit profitability varies based on the services and delivery model selected.

2. Property Value is calculated by dividing the annual per-unit profit by a .04 cap rate.

## Community-wide Connectivity

Smartaira 360 is an innovative, multifamily Managed Wi-Fi solution that integrates into your Property Management System (PMS) to simplify your residents' internet connectivity experience.

- Hassle-free, Automated Onboarding
- Stream Anything, from Anywhere
- Secure, Private Connections
- Premium 24/7 Support
